

Notes to the Interim Consolidated Financial Statements

For the nine months ended December 31, 2006 (\$ in thousands)

(unaudited)

1. Basis of Presentation

These unaudited interim Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements for the year ended March 31, 2006, as set out on pages 95 to 128 of the 2006 Annual Report.

These interim Consolidated Financial Statements have been prepared in accordance with Canadian generally accepted accounting principles using the same significant accounting policies outlined in the notes to the Consolidated Financial Statements for the year ended March 31, 2006.

2. Allowance for Credit Losses

The allowance for credit losses recorded in the Consolidated Balance Sheet is maintained at the level which management considers adequate to absorb credit-related losses for all on- and off-balance sheet items in ATB's credit portfolio as at the balance sheet date. The continuity of the allowance for credit losses is as follows:

¹ During the second quarter, ATB implemented a refined methodology for establishing the level of its general loan loss allowance. This represented a change in estimate, was accounted for prospectively and resulted in a one-time recovery of \$24.3 million.

3. Guarantees

Guarantees represent an irrevocable obligation to make payments to a third party in certain situations. Guarantees include contracts or indemnities that contingently require ATB to make payments (either in the form of some asset or in the form of services) to another party based on (a) changes in an asset, liability, or equity the other party holds, (b) failure of a third party to perform under an obligating agreement, or (c) failure of a third party to pay its indebtedness when due. In the event of a call on such commitments, ATB has recourse against the customer.

Significant guarantees provided by ATB to third parties include:

- a) Loan guarantees and standby letters of credit (discussed in Note 15 to the Consolidated Financial Statements for the year ended March 31, 2006) totalling \$199,074 as at December 31, 2006 (September 30, 2006: \$193,145; June 30, 2006: \$163,138; December 31, 2005: \$158,448).

3. Guarantees (continued)

- b) Foreign exchange forward contracts (discussed in Note 14 to the Consolidated Financial Statements for the year ended March 31, 2006) having notional principal amounts totalling \$5,985 as at December 31, 2006 (September 30, 2006: \$5,400; June 30, 2006: \$561; December 31, 2005: \$1,152).
- c) Indemnification agreements entered into in the ordinary course of business, such as purchase contracts, service agreements, or sale of assets. A maximum potential liability cannot be readily estimated, but historically ATB has not made any significant payments under such guarantees.

ATB has also issued a \$5.0 million guarantee to Canadian Depository for Securities (“CDS”) in respect of one of its subsidiaries to support the settlement of investment transactions with CDS.

4. Employee Future Benefits

ATB provides future pension benefits to current and past employees through a combination of defined benefit and defined contribution plans, but does not provide any other employee future benefits (discussed in Note 13 to the Consolidated Financial Statements for year ended March 31, 2006).

The net pension benefit expense is included in Salaries and employee benefits expense in the Consolidated Statement of Income.

For the three months ended	December 31, 2006		September 30, 2006	December 31, 2005
Net pension benefit expense	\$	5,081	\$ 5,062	\$ 4,093

For the nine months ended	December 31, 2006		December 31, 2005	
Net pension benefit expense	\$	15,221	\$	8,948

5. Segmented Information

ATB has organized its operations and activities around the following three business segments or lines of business:

- **Personal and Business Financial Services** comprises the branch, agency, and ABM networks, and provides financial services to individuals, independent business, and agricultural customers;
- **Corporate Financial Services** provides financial services to medium- and large-sized corporate borrowers; and
- **Investor Services** provides wealth management solutions including retail brokerage, mutual funds, portfolio management, and investment advice.

ATB’s operating activities are not geographically distributed for external reporting purposes, as all its operations are limited to customers within the province of Alberta.

Basis of presentation

Results presented in the following schedules are based on ATB’s internal financial reporting systems. The accounting policies used in these groupings are consistent with those followed in the preparation of the Consolidated Financial Statements as disclosed in the other Notes to the Consolidated Financial Statements. As these lines of business are based on ATB’s internal management structure, they may not be comparable to those of other financial institutions.

Customer-related assets and liabilities (and the directly related revenues and expenses) are allocated between ATB’s lines of business based on management of the client relationship rather than the specific nature of the loan, deposit, or other product provided or service rendered.

5. Segmented Information (continued)

Net interest income (“NII”) is attributed to each line of business according to ATB’s internal funds transfer pricing (“FTP”) system whereby assets “earn” NII to the extent external revenues exceed internal FTP expense and liabilities earn NII to the extent internal FTP revenues exceed external interest expense. Specific provisions for credit losses are allocated based on the individual underlying impaired loan balances and general provisions (excepting any special general provisions) are allocated based on management of the client relationship, in the same way as the underlying loans.

Direct expenses are attributed between lines as incurred. Certain indirect expenses are allocated between Investor Services and the other lines on the basis of inter-line service agreements. Certain other costs are allocated between the reporting segments using cost allocation methodologies that incorporate activity-based estimates of indirect cost allocation. Indirect expenses not allocated and direct expenses of a corporate or support nature are reported under the “Other Business Units” segment.

Certain comparative amounts have been reclassified to conform with the current period's presentation.

Caution regarding forward-looking statements

This report may include forward-looking statements. ATB Financial from time to time may make forward-looking statements in other written or verbal communications. These statements may involve, but are not limited to, comments relating to ATB's objectives or targets for the short and medium term, strategies or actions planned to achieve those objectives, targeted and expected financial results, and the outlook for operations or the Alberta economy. Forward-looking statements typically use the words "anticipate," "believe," "estimate," "expect," "intend," "may," "plan," or other similar expressions or future or conditional verbs such as "could," "should," "would," or "will."

By their very nature, forward-looking statements require ATB's management to make numerous assumptions and are subject to inherent risks and uncertainties, both general and specific. A number of factors could cause actual future results, conditions, actions, or events to differ materially from the targets, expectations, estimates, or intentions expressed in the forward-looking statements. Such factors include, but are not limited to: changes in legislative or regulatory environment; changes in ATB's markets; technological changes; changes in general economic conditions, including fluctuations in interest rates, currency values and liquidity conditions; and other developments, including the degree to which ATB anticipates and successfully manages the risks implied by such factors.

ATB cautions readers that the aforementioned list is not exhaustive. Anyone reading and relying on forward-looking statements should carefully consider these and other factors that could potentially have an adverse affect on ATB's future results, as there is a significant risk that forward-looking statements will not prove to be accurate.

Readers should not place undue reliance on forward-looking statements, as actual results may differ materially from plans, objectives, and expectations. ATB does not undertake to update any forward-looking statement contained in this report.
